

PCN Overview			
PCN Number	DHCOM-STM32MP1-001		
PCN Date	28.10.2020		
Type of Change	Change Component		
History			
Revision	Date	Description	Name
R01	28.10.2020	First draft	MH
R01	29.10.2020	Reviewed and approved	AG

Change Information	
Reason of Change	The voltage level translator for the microSD card interface has been discontinued without any compatible alternative. This level translator was meant for the support of the bus speed mode "UHS-I (SDR104)".
Description of Changes	From now on the voltage level translator is not populated on the DHCOM module anymore and therefore, the maximum bus speed mode for the microSD card interface is now limited to "High Speed (HS)".
Customer Impact	Since the "UHS-I (SDR104)" mode was not supported by the software so far, there shouldn't be any impact for you as a customer.
Suggested Measures	-
Logistics	No changes to the existing article numbers. Only the description text changes.

Affected Products	
HI00014	DHCM-STM32MP157C-C065-R102-F0819-SPI-E2-CAN2-SDR104-RTC-WBT-T-DSI-I-01D2
